

ANAND KUMAR J

Dot Net Developer

PROFESSIONAL SUMMARY

Results-driven .NET Full Stack Developer with hands-on experience in developing scalable web applications using ASP.NET Core MVC, React.js, SQL Server, and RESTful APIs. Proficient in full software development life cycle including design, coding, testing, and deployment. Passionate about delivering high-quality code and optimizing the performance of the application.

TECHNICAL SKILLS

Programming: C#, JavaScript, HTML5, CSS3, React.js, jQuery, Bootstrap 5

Frameworks: ASP.NET Core MVC, Entity Framework Core, ADO.NET, Web API

Databases: SQL Server 2022, MySQL

Tools: Visual Studio, VS Code, Git, GitHub, Postman, Swagger

Concepts: RESTful APIs, JWT Authentication, Unit Testing, CI/CD

Soft Skills: Good Communication, Problem-Solving, Writing Clean and Testable Code

PROFESSIONAL EXPERIENCE

Software Developer – OceanWalk, Chennai

July 2024 – Present

- Assisted in development of Accounting & Auditing Firm App using ASP.NET Core MVC and SQL Server, which reduced manual processing time by 25%.
- Designed front-end with Bootstrap, AJAX, and jQuery, improving dynamic user experience and interface responsiveness by 40%.
- Implemented OTP-based authentication, JWT security, and service management modules.
- Collaborated closely with senior developers to test, debug, and deploy scalable solutions within tight timelines.
- Practiced writing clean, modular, and testable code, enhancing maintainability and reducing defects by 15%.

Software Trainee – Suffix E Solutions, Trivandrum

Jan 2024 – Apr 2024

- Developing and maintaining web applications using ASP.NET Core MVC, React.js, and SQL Server.
- Designed RESTful APIs for internal tools and integrated front-end React components.

- Implemented Entity Framework for data persistence and LINQ queries for optimized data retrieval.
- Optimized stored procedures and improved backend performance by 30%.
- Collaborated with cross-functional teams to ensure seamless integration and deployment of new modules.

PROJECTS

Online Learning App

- Features: Sign-in/Sign-out, Course Management, Instructor & Admin Panels.
- Technologies: ASP.NET Core MVC (C#), SQL Server 2022, Bootstrap 5, jQuery, Entity Framework.

Accounting and Auditing Firm App

- Developed JWT-secured user authentication and payment integration modules.
- Tools: ASP.NET Core, SQL Server, Bootstrap, RESTful APIs, Git & GitHub.

EDUCATION

Master of Business Administration (MBA) – Ponjesly College of Engineering, 2017 – 2019

Bachelor of Computer Applications (BCA) – Vivekananda College of Arts and Science, 2014 – 2017

LANGUAGES

English, Tamil, Malayalam
